- H. New Business (All)
- I. March meeting date
- J. Adjourn

SECURITY ENFORCEMENT COMMITTEE
Security Assessment Memorandum
Prepared by: Matthew Emory

Intent of the Security Assessment

1. Provide evidence-based planning in effort to advise the Board of Commissioners on security strategies that will improve public safety in the French Quarter
2. To seek an objective assessment of current security throughout the French Quarter
3. Developed matrix for safety and security accountability

Isolated incidents create distorted, negative images of the French Quarter and the city as a whole; moreover, there are recurring violations that perpetuate the deteriorated image of the French Quarter 'experience' and undermine long-term economics. Our strategies must evolve from basic neighborhood policing tactics to be a more tourism-oriented policing/protective services to address the social and financial aspects attached to the French Quarter. The SEC members have an opportunity in assisting the development of macro strategies that will be tactically executed within our community. I look forward to the continued involvement and participation of the SEC members as we work toward productive, results-oriented solutions.
